ABOUT ME

I am a motivated IT professional with experience in Laravel development and web application projects. I have worked on both live and local projects, gaining strong skills in backend development, REST APIs, and database management. I also completed web development training and am currently continuing my BSIT from Virtual University of Pakistan. I am passionate about building efficient and scalable digital solutions while continuously improving my technical and problem-solving skills.

EDUCATION

Punjab College Sahiwal | 2021-2023

Fundamentals of Advanced Information Technology

Completed FA (Information Technology) from Punjab College, where I gained basic knowledge of computer applications, IT fundamentals, and office productivity tools. Developed an understanding of digital concepts and built a foundation for further studies in the IT field.

Virtual University | 2025-Present

Bachelor of Science in Information Technology

Currently pursuing Bachelor of Science in Information Technology (BSIT) from Virtual University of Pakistan. Developing strong knowledge in programming, web development, databases, and modern IT concepts along with practical skills in software development.

WORK EXPERIENCE

WebCrazier IT Soloutuins LLC (USA) | 10 Aug 2025 - Present

Php Laravel Developer

Completed multiple live projects using Laravel and gained practical experience in backend development, API integration, database management, and scalable web application development. Worked on real-world business solutions and enhanced professional software development skills.

ExlonTech | 07 April 2025 - 08 Aug 2025

Php Laravel - InterShip

Completed internship at ExlonTech where I worked on Laravel-based projects in a local development environment and gained hands-on experience in web application development, REST APIs, database management, admin panels, and backend development concepts. Learned professional coding practices, problem-solving, and team collaboration.

SKILLS

- Laravel Web Development
- Database Management (MySQL)
- Backend Development
- Authentication & Authorization
- CRUD Application Development
- Admin Panel Development
